<sup>&</sup>lt;sup>1</sup> To be specified in order phase.

## Description

Contactor with single interruption in air, electromagnetic control by full power coils. Single state functioning. Special execution for frequency up to 400 Hz and short circuit interruption capabilities. Reference Standard IEC 60077.

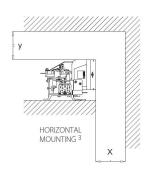

| Insulation Characteristics                                  |       |      |                                      |
|---|-------|------|--------------------------------------|
| Rated Operational Voltage (AC / DC)                         |       | [V]  | 1800 / 900                           |
| Max Operational Voltage (AC / DC)                           |       | [V]  | 2000                                 |
| Rated Insulation Voltage                                    |       | [V]  | 2000                                 |
